Instruction and calendar Methotrexate Teva Pen

Injection instruction

BEFORE

1 Wash your hands with water and soap

2 Sit or lie in a comfortable position

3 Remove the pen from the packaging and check if the seal between the white area and the green cap is intact

DURING

4 Choose a different injection site each time (see back)

5 Clean the injection site with an alcohol swab

6 Remove the cap

7 Make a fold in your skin by gently squeezing and holding it

8 Place the orange needle guard against the injection site

9 Press the pen down against your skin until you hear and feel a click to start the injection

10 The injection is complete after the 2nd click. Take the pen from your skin after 2 to 3 seconds and let your skin fold go

AFTER

- 11 Check the pen after use. The window must be green after the injection. This means that all liquid has been injected
- 12 Place the used pen in the needle bin

Apply medication once a week

Calendar for use Methotrexate Teva Pen

CALENDER INSTRUCTION:

- 1 Choose a day on which you want to inject every week
- 2 Change the injection site every week. Write an A, B, C or D underneath the week number corresponding to the image below
- 3 Write down the date of the injection besides the letter of the injection site

| ON WHAT DAY DO YOU WANT TO INJECT? (enter here) | | | | | | |
|---|-----------|--------|--------|--------|--------|---------|
| | month | week 1 | week 2 | week 3 | week 4 | week 5* |
| | January | | | | | |
| | February | | | | | |
| | March | | | | | |
| | April | | | | | |
| | May | | | | | |
| | June | | | | | |
